

Western Bean Cutworm Trap Supply List

For *each* WBC trap, you will need:

1. Trap
2. Pheromone Lures
3. Fumigant or Vapor strips

1. Traps

Trap type: **All Green Bucket or Universal Trap.**

Two suppliers we have dealt with:

- A. Ontario/Quebec supplier: distributions Solida <http://www.solida.ca/>
The traps are not listed on their website but they do carry them. Contact Solida directly to order the correct trap
- B. Michigan supplier: Great Lakes IPM
<http://www.greatlakesipm.com/universalthtraps.html>
Make sure to order it in **GREEN Item #IPS-G004**

2. Lures

Preferred WBC Pheromone Lure Brands include “Scentry” or “Trece”. Change lures every 3 weeks so for each trap, starting from June 1st until Sept 14th = 15 weeks/3 = **5 lures/trap/year**. Lures, if stored in the freezer, can be used next year too so it might be cost effective to order a case of 25 lures and have them for next year too

- A. Ontario/Quebec Supplier: distributions Solida <http://www.solida.ca/>
The lures are not listed on their website but they do carry **Sentry brand** lures for WBC. Contact Solida directly to order the correct lures
- B. Michigan Supplier: Great Lakes IPM
Scentry brand WBC Lures (second last item from the bottom) Item # SC-L206
<http://www.greatlakesipm.com/scentrylures.html>

Trece brand WBC Lures (third item from the bottom) Item # TR-3406
<http://www.greatlakesipm.com/trecelures.html>

3. Fumigant or Vapor Strips

These are plastic strips impregnated with an insecticide to fumigate the trap and kill the moths so that they do not fly away when you open the trap to count them. 1 strip will last for at least 2 months. You can order them at distributions Solida <http://www.solida.ca/> so that there are no issues with getting it across the border. If in a pinch, we have also gone to a local hardware store and purchased the Ortho Home Defense Strips for flies. <http://www.scotts.ca/smg/goproduct/ortho-hdm-fly-killer-strips/prod10100082>. One strip can be cut into 1 inch wide strips and be enough for 5 traps. Always use gloves when handling these strips.
