

# Ryegrass for Maximum Quality

## Italian or Westerwold

- Potential hosts = 3+ years
- Needs 50 lbs N/acre for each cut
- Highly digestible = high DMI
- Difficult to terminate

I stole this slide from Mike Cowbrough

# Annual Ryegrass

Control

Roundup (0.33 L/ac)

Roundup (0.67 L/ac)

Roundup (1.00 L/ac)

Roundup (1.33 L/ac)

Roundup (2.00 L/ac)

**Termination  
before corn:**  
high-rate  
glyphosate  
(540g/L) + Ultim

Apply when temps  
>10C & warming;  
grass <12"

See  
[sprayers101.com](http://sprayers101.com)  
for maximizing  
coverage

# Ryegrass for Maximum Quality

## Italian or Westerwold

	Ryegrasses
